No. 5495 / April 16th, 2018

DECLARATION OF CONFORMITY

According to: Council Directive 2013/59/EURATOM

Concerning the legal requirements stipulated by:

- Council Directive 2013/59/EURATOM laying down basic safety standards for protection against the dangers arising from exposure to ionising radiation,

we declare that our manufactured products, **cold rolled stainless steel strips**, delivered to our customers are not radioactive contaminated and do not fall under incidence of European Union Council Directive 2013/59/Euratom.

This declaration is based on conformity declarations received from our raw material suppliers which state that the products delivered to our company are not radioactive contaminated, and to the fact that the technological processes in Otelinox do not radioactive contaminate the products delivered to our customers.

General Director,
Know Kook PARK
