

## OTELINOX POLICY IN THE SCOPE OF: QUALITY, ENVIRONMENT AND OCCUPATIONAL HEALTH & SAFETY

**Improving the quality of processes and products, environmental protection, concern for occupational health and safety represent priorities of our company!**

**Quality, Productivity, Delivery on time, Infrastructure and Corporate Culture** are the strategic factors which we are focusing on in order to accomplish Otelinox mission, to manufacture stainless steel cold rolled strips with high quality which satisfy customers' requirements.

**We ensure the increasing of customers' satisfaction as well as of all interested parties, through:**

- **Continuously improving of quality** in order to increase our products' competitiveness (reducing up to eliminating defective products delivered to customers, increasing the ratio of first quality products, etc.);
- **Optimization of processes and technologies**, contributing in costs reduction and sustainable works (reducing the consumptions of raw materials, technological and packing materials, utilities, electricity);
- **Minimizing the negative impact over the environmental factors:** water, air and soil;
- **Improving the response capability in case of emergency situations:**
- **Eliminating hazards and minimizing occupational health and safety risks** to provide safe and healthy workplaces, as well as to **prevent injuries and ill health**. In this regard, **consultation and participation of workers** is essential;
- **Complying with customers' requirements as well as all applicable legal and statutory requirements**, including legal and other requirements relevant for Environment and Occupational Health & Safety;
- **Maintaining Otelinox concern** for meeting the needs of the community through social responsibility actions;
- **Developing the strategic resource represented by the company's personnel**, supporting its professional development and properly using its skills and abilities;
- **Ensuring a favorable environment for business development through identifying and addressing the risks and opportunities.**

**Through all these steps and leadership, the Top Management is committed to continuous improvement of the Management Systems of the Company based on standards: ISO 9001 - IATF 16949, ISO 14001 and ISO 45001.**
